

HOMEWORK

MAKING THE HEADLINES

The WWRB Gazette wants to feature a country in its next issue. Use the information and data you just learned about to present an objective assessment of the water situation in the 3 countries.

Use the *WWRB Datasheet* to **create a graph** that presents how the 3 countries compare on any of the measures: *population, area, or water availability*. Then **write 3 headlines** that will help ordinary readers interpret the data presented on the graph.

The WWRB Gazette

Paste graph here

Headline 1: _____

Headline 2: _____

Headline 3: _____
