

Welcome to the WWRB

The WWRB is giving aid to countries that have the greatest need for water. To help us decide who gets aid, you need to complete this Analyst's Guide and present the best possible argument on behalf of the country assigned to you.

There are 4 steps in completing this case study.

YOUR MISSION HAS 2 PARTS:

You will prepare the best possible argument on behalf of the country, THEN you will make an objective evaluation of all the arguments presented. Use data as evidence to support your claim.

Good luck!

J. T. Smith
WWRB Director
